

The Open Doors Transition Center can help you explore your options for moving to the community.

Transition Specialists are familiar with the services, support systems and technology available. An Open Doors Transition Specialist will work with you, your loved ones, the nursing home staff and community members to make a plan. They will help you identify what you need to live at home.

The Transition Specialist can help you set up those services.

The Open Doors Peer Program can match you with a caring Peer. Peers know how hard it can be to move from a nursing home. Peers are people who live in the community with the services and support they need to stay in the community. The Peer will meet with you, support you through the move, and help you get settled in your new home.
